

# Santhosh Prakash M

Junior Software Engineer

## Professional Summary

**Egrove Systems Private Limited, Madurai**

**Junior Software Engineer**

**From December 2023**

**2 Years** of experience in Shopify, WordPress, and responsive web design. Skilled in optimizing websites for performance, usability, and mobile-first experiences.

## Technical Skills

### Shopify Development

- Demonstrated strong expertise in the Shopify platform, including managing products, collections, inventory, and order workflows to ensure seamless store operations.
- Developed and customized Shopify themes using Liquid, HTML, CSS, and JavaScript to deliver visually appealing, user-friendly, and responsive eCommerce experiences.
- Integrated and configured third-party apps and tools to enhance functionality, improve conversion rates, and automate business processes.
- Implemented SEO and performance optimization techniques to improve website visibility, reduce page load time, and enhance the overall user experience.
- Collaborated with design and marketing teams to ensure branding consistency and alignment with digital strategy.

### Wordpress Development

- Proficient in managing and maintaining websites through the WordPress dashboard, including content updates, media management, and menu configurations.
- Customized and built WordPress themes using HTML, CSS, PHP, and JavaScript to achieve tailored website layouts and design modifications.
- Installed, configured, and optimized plugins to extend website functionality while maintaining security and performance standards.
- Implemented best practices for site optimization, including caching, image compression, and code minification to enhance speed and reliability.
- Strengthened WordPress site security by managing user roles, updates, and security plugins to mitigate vulnerabilities and protect data integrity.

## Objective

Seeking a challenging role in a dynamic organization where I can apply my technical expertise to build engaging, user-friendly websites and continue growing as a full-stack professional.

## Education

**BE – CSE** 8.5 CGPA  
NPR College of Engineering & Technology  
2019 – 2023

**HSC** 77%  
EBG Matriculation Higher Secondary School  
2019

**SSLC** 92%  
EBG Matriculation Higher Secondary School  
2017

## Strengths

- Leadership
- Work Ethics
- Quicker Learner
- Easily Adoptable and Flexible

## Area of Interests

- Web Development
- Software Testing

## **Frontend Development**

---

- Built responsive, cross-browser-compatible user interfaces using HTML5, CSS3, and JavaScript, ensuring a seamless experience across all devices.
- Utilized frameworks such as Bootstrap to develop modern, mobile-first designs and efficient layouts.
- Collaborated with designers and backend developers to ensure cohesive front-end integration and smooth functionality.
- Optimized websites for performance and accessibility, implementing techniques like lazy loading, minification, and structured semantic markup.
- Conducted testing and debugging across multiple browsers and devices to maintain quality assurance and visual consistency.

## **Roles and Responsibilities**

---

- Successfully contributed to nearly **50 government projects** under the **New Jersey Economic Development Authority (NJEDA) program**, delivering high-quality web solutions tailored to program goals and compliance requirements.
- Collaborated with cross-functional teams to develop, customize, and maintain websites and web applications aligned with federal and state accessibility standards.
- Played a key role in **front-end development, Shopify and WordPress customization**, and integration of digital tools to streamline user experiences for public-facing platforms.
- Ensured all projects met strict timelines, security protocols, and performance benchmarks, demonstrating strong problem-solving skills and attention to detail.
- Actively participated in testing, deployment, and optimization phases to ensure scalable, reliable, and user-friendly government web applications.

## **Co-Curricular Activities**

---

- Presented and Published a own paper in "**Journal of Web Engineering and Technology**" through Virtual International Conference under "**International Conference on Internet of Things, Communication, Intelligence and Computing**" at *ShriDevi Institute of Engineering and Technology, Tumakuru, Karnataka*.

## **Awards**

---

- Awarded as "**Best Employee of the Year**" November 2024 at **Egrove Systems**
